An Extract from the decision of the Cabinet taken in its meeting held yesterday is given below:-

x x x

1) 6. It was decided that the draft Rules under the Irrigation Act, which are being scrutinised by the Law Department, must be finalised and published within 30 days. The Law Department must make special arrangements to see that the scrutiny is completed within 7 days. Pending the promulgation of these rules, powers under the Defence of India Rules should be delegated to the Deputy Commissioners to enable them to decide that a ryot shall grow on a particular piece of land only, crops specified by the Deputy Commissioner. (A)

x x x

CHIEF SECRETARY No. 9582 20 NOV 1965 GOVT. OF MYSORE

2) Please see that special arrangements are made for completing the scrutiny of the rules under the Irrigation Act and final promulgation of rules within the time limit laid down by the Cabinet.

Brahmanday
(20-11-1965)
CHIEF SECRETARY.

LAW DEPARTMENT.

A revised draft Order is placed in the file. The reference to the Mysore Irrigation Act, 1965 and the rules thereunder have been omitted, as the procedure contemplated under sections 31 and 32 of the Act will have to be followed in all cases to which those sections ~~of the Act~~ would become applicable. Under sub-section (1) of section 32, a notification has to be issued by the State Government. The omission of reference to Irrigation Act will enable the Deputy Commissioner to exercise the power delegated without following the procedure laid down in the Mysore Irrigation Act, in respect of all lands.

1747/F/66

Letter No.31/39/66-Poll I(B) dated 8-3-1966 of the Government of India, Ministry of Home Affairs, New Delhi.

The Govt. of India have sent a copy of the letter from Sri P. Kodanda Rao, addressed to the Union Home Minister about the decision of the State Government to empower the D.Cs to decide the cropping pattern.

Sri H. Sitarama Reddy had also made a similar representation about the application of D.I.R. to production of food grains. The points mentioned by Sri Sitarama Reddy have been examined in this Department's file No. FSD 1747/66 so far as the Food Department is concerned. 2

As the matter relates to the Agriculture Department, this may be transferred to the A & F.D. for further action. 3

Defence of India Rules — Applicable to Cropping pattern

Note Continuation Sheet

Subject.

File No. 75D1747/66

Reference and markings	Notes and Orders	Para Numbers
	Sri Sitarama Reddy has stated that according to the Newspaper Reports, the Govt. of Mysore have decided to empower the D.Cs under the Defence of India Rules to decide the type of crops that should be grown The Union Home Minister is reported to have announced recently that in future recourse would be had to the Defence of India Rules only for the limited purpose of national security. In view of this decision of the Govt. of India Sri Sitarama Reddy has suggested to the State Government that they might reconsider the decision to empower the D.Cs under the D.I.R. to decide the cropping pattern.	3 4.
	The State Govt. have decided to undertake monopoly trading in foodgrains during the coming crop year commencing from 1-9-1966. The scheme of monopoly trading in foodgrains involves several implications. One of the points which will have to be considered will be about the powers to be given to the local officers to direct the cropping pattern so as to ensure that adequate food crops are grown in the areas. The Department of Agricuture would have to take these powers and delegate them to the local officers so as to secure the following results:-	4 5
	Any person who holds lands which is equal to or less than the extent required	6

Defence of India Rules -

Reference and markings	Notes and Orders	Para Numbers

to meet his requirement, the requirements of the members of his family, seed purposes etc. should necessarily grow only foodcrops.

Any person who has got a larger holding would have to grow foodcrops at least in an extent of 50 per cent of his holding.

The lands which were under food crops during the previous year could be switched over to cash crops only with the prior permission of some specified officers of the Department of Agriculture.

As the Govt. of India seem to have taken a decision that the D.I.R. should be used only for the limited purpose of national security, the question of taking powers to direct the crop pattern under some other statute will have to be examined. (7)

A detailed note about the scheme of monopoly trading in foodgrains has already been sent to the Secretaries of all Departments with a request to have the matters relating to their Departments examined immediately (Vide Food Secretary's D.O. Letter No.FSD 2 RRM 65 dated 13-1-1966). As this subject relates to the measures to be taken to direct the cropping pattern, it pertains to the Agriculture Department. This may be marked to the Secretary, A & F.D. for further action. (8)

Reference and markings	Notes and Orders	Para Number
	Shri P.Kodanda Rao (p.3 c/f) and Shri. H.Sitarama Reddy (p.7 c/f) have made reference to Mysore Cabinet decision on Wednesday the 23rd February 1966 when it was decided to empower the D.Cs under the Defence of India Rules to decide the type of crops that should be grown. I have obtained a copy of the relevant Cabinet decision on 23.2.66 from the Deputy Secy., GAD, Shri.K.S.N.Murthy which may kindly be seen on page 17 c/f.* It may kindly be seen that the Cabinet decision of 23.2.66 refers to the Scheme for achieving self-sufficiency in foodgrains in Mysore State within 3 years and ~~it is~~ does not make any reference to D.Cs being empowered under D.I.R. to decide the type of crops that should be grown by Mysore Farmers in the State.	24
Flag 'K'		
	In the circumstances it is for consideration if we may in the first instance find out from the ~~press~~ Dir. of Publicity & Information how this information came to be published in the press.	25

On reconsideration I find that G.O. No. PWD 93 LBW 65 dt. 15.12.65 was issued much earlier than 23.2.66 — the date on which the Cabinet decision regd. DCs deciding growth of crop varieties is stated to have been made. I am afraid I do not see the relevance of this PWD G.O. dt 15.12.65 & the Cabinet decision on 23.2.66. However since the subject matter raised by Shri P Kodanda Rao and Shri Hsita Rama Reddy,

The above order has been issued as per decision of the Cabinet taken in the meeting held on 19-11-65. Ref: Paras 1 & 2 of the notes portion of the closed file no. PWD 93 LBW 65 placed below

The Govt of India in the ministry of Home affairs, while forwarding a copy of letter dated 26.2.66 from Sri P. Kodanda Rao regarding misuse of D.I.R., have requested to furnish a reply on the several points raised therein (vide para 1 of C.F.)

Sri Kodanda Rao has stated that application of the D.I.R. to decide Crop ~~varieties~~ varieties as per Cabinet decision taken by Govt of Mysore is ~~not wise~~ unwise and this should be abandoned.

SECRETARIAT No. 14 MAR 1966 HOME DEPARTMENT

3020 ISSUE SECTION

To

The Chief Secretary to the
Government of Mysore.
BANGALORE.

New Delhi-11, the 9th March 1966
Phalguna 1887.

Sir,

I am directed to forward herewith a copy of letter (With enclosure) dated the 26th February., 1966 from Shri P.Kodanda Rao regarding misuse of D.I.R. and to request that full facts in respects of the points raised in his letter may kindly be furnished to this Ministry urgently.

Yours faithfully,

sd/-
for Under Secretary to the Govt. of India.

MYSORE GOVERNMENT SECRETARIAT No. 16 MAR 1966 SUPPLIES BRANCH.

Copy of the letter dated the February 26th 1966. (3)

Dear Mr. Nanda,

Greetings and good wishes.

I read in this morning's papers your statement in Parliament to say that the operation of the Defence of India Rules would be reviewed in the light of the observations of the Supreme Court. You have indicated the purposes for which the DIR can be used legitimately.

May I bring to your notice that the Mysore Cabinet was reported in the press to have decided on the 23rd to empower Deputy Commissioners under the Defence of India Rules to decide the type of crops that should be grown by farmers in the State? It seems to me that this is a misuse of the DIR. Incentives may be offered to induce farmers to grow particular types of crops but not use the DIR for the purpose. much less by Deputy Commissioners who are not agricultural experts. The possibility of misuse of these powers stagger the imagination. I am not exaggerating the prospect.

According to Mysore Government the state is only marginally deficit in foodgrains. It would appear that the total production was about 42 lakh tonnes as against the total demand of 45 lakh tonnes and the shortage of rice was estimated at 3 lakh tonnes annually.

According to Dr. Parpia of the Central Food Technological Research Institute, Mysore the amount of food grains grown by human beings in India for human consumption but lost to them by the depredation of rodents, birds, monkeys, etc. is over 40%. If the Mysore Government can reduce this diversion of food by vigerous action against rodents and monkeys, the deficit could be easily made up. Both Mr. C. Subramaniam of the Centre and Mr. S. Nijalingappa of Mysore have publicly advocated the destruction of monkeys, useless cattle, rodents, etc. is humiliating to a degree.

I enclose a Note which I wrote on this subject for favour of your earnest consideration.

It is better to conserve food that we grow rather than grow more food or beg more food from abroad.

Commercial crops are more remunerative than food crops and it is unfair to compel farmers to grow only food crops and forbid them from growing commercial crops when the latter will give them a higher purchasing power.

With kind regards,

Yours sincerely,

sd/- (P.Kodanda Rao)

Shri G.L.Nanda
6, Hastings Road,
New Delhi.

(5)

Respectfully submitted
for favour of perusal/publication

MONKEY MENACE

Conservation of food grown in India for human consumption is as important as its increased production and imports. It is humiliating that India should import food from , for instance, America should be expected to feed themonkeys also. Monkeys cannot be expected to tighten their belts or starve themselves to death out of concern for the needs of human ~~beings~~ beings normally, or even of soldiers in the present emergency, nor practise birth-control. Their depredation can be stopped only by killing them.

Amongh those who, in spite of sentiment among Hindus, countenanced the destruction of monkeys may be mentioned Dr. K.M. Munshi, the Governments of Orissa and Madhya Pradesh and, more recently, Union Food Minister C. Subramaniam and Mysore Chief Minister Nijalingappa. But no effective action seems to have been taken largely because of the assumption that monkeys were the descendants of Hanuman whom the Hindus worship. Hanuman was said to have performed heroic deeds for good purposes like leaping the ocean, lifting a mountain and discovering Sita for Rama; The monkeys of today are incapable of any such deeds, to deserve any consideration.

By the way, what was the language which Hanuman, the monkeys and Jatayu, the bird, used to communicate with Rama, Lakshmana and Sita? Was it Sanskrit with Rama, a man, and Prakrit with Sita a Woman?.

Another reason for not taking effective action to destroy monkeys at present was the reluctance of some Ministers in some Governments to risk their success at the next general election, notwithstanding that millions of Indians might starve in the meanwhile. It is difficult to condemn the attitude within the limits of Parliamentary language.

Effective action must be taken here and now to save people from monkeys and selfish Ministers. The best solution seems to be to catch and export monkeys of thereproduction ages, and earn foreign exchange AND Shoot the others and bury them and enrich the soil with good manure.

Shooting of monkeys must be entrusted to those who are experts in using the gun and who are willing to shoot monkeys. Appeals should be addressed for volunteers from among soldiers, N.C.C. cadets and, above all, the ex-servide men, for the essential national service of ridding India of the monkey menace, and at the same time, for earning foreign exchange and producing good manure, and encourage the volunteers with rewards, monetary and other. The fight against monkeys within India is as important and urgent as fighting foreign enemies on her frontiers.

Date 26th February 1966

My dear Sri.Nijalingappa,

The Deccan Herald dated the 24th instant has published a news item under the heading "DCs to decide crop varieties". It begins with 'The Mysore Cabinet on Wednesday decided to empower the Deputy Commissioners under the Defence of India Rules to decide the type of crops that should be grown'. In the Hindu of to-day (26-2-66), the Special Correspondent of the paper at New Delhi has reported to the paper which is published in the front page, as follows:-

> "DIR not for economic offences. Mr.Nanda, the Home Minister, has announced that the Government had decided that in future recourse should be had to the powers of Preventive Detention and Prosecution under DIR 'only for the limited purpose of national security; that is, defence or India, civil defence and efficient conduct of military operations'. Negatively, he has also said that 'Controlling, hoarding, blackmarketing and other economic offences also recourse should not be had to preventive detention under the DIR".

In view of the statement of the Home Minister of the Govt. of India about the application of the DIR, I believe it would be unwise to apply Defence of India Rules to decide crop varieties.

Even without the assurance by the Home Minister about the limited application proposed by the Government of the Defence of India Rules, my feeling is that application of DIR to crop patterns would be beyond the powers of any Government under the DIR. The purpose of deciding crop varieties evidently is to increase the production of foodgrains. This can be effectively achieved if the return to the farmer on foodgrain cultivation is the same as on commercial crops. Take for instance, sugarcane. The cultivator of sugarcane in an area where a sugar factory is located, is assured of a minimum price of sugarcane that he grows. The price that a sugarcane grower gets is attractive and there is keen competition among the sugarcane growers to increase per acre yields. If our prices paid to foodgrains are equally attractive, the farmer should be equally keen to produce more. I am aware that there are many difficulties in applying this principle to foodgrain production.

p.t.o.

I believe that timely and equitable distribution of fertiliser will go a long way to increase foodgrain production in India. Blackmarketing and adulteration of fertilisers are becoming common. I am pained to learn that the fertiliser that is handed over to some of the Co-operatives also finds its way into the blackmarket. It is not possible for me to prove it in a court of law. But I am convinced from the various reports circulating among the farmers that it is true.

Even the present supply of fertiliser and pesticide if distributed honestly would help in bringing down the prices of foodgrains. The cost paid in the blackmarket by the farmer naturally is reflected in the price that the consumer pays for the foodgrains.

I would agree to the application of DIR to these blackmarketeers, but unfortunately, they are too clever and crafty to be caught even if the DIR can be made applicable to them. May I request you to abandon the idea of empowering the Deputy Commissioners to control crop varieties as it would be ultra vires and I do not like any Government being told by the courts that they are doing things which are illegal.

With kind regards,

Yours sincerely,

H.SitaRamaReddy

N. NARASIMHA RAU,
Secretary to Government,
Food Department.

Mysore Government Secretariat,
'Vidhana Soudha',
Bangalore, Dated: 13th January, 1965.

D.O. NO. FSD 2 HRM 65.

Dear Sir,

The State Government have decided to undertake monopoly trading in foodgrains during the current year; provided that the money required for the purpose and the foodgrains required for maintaining the supplies are made available by the Government of India. They have however taken a firm decision to undertake monopoly trading in any case during the coming crop year, commencing from 1-9-1966 and have desired that necessary preliminary action should be taken from now on.

I enclose herein for your information a note indicating in broad outline the implications of the scheme of monopoly trading in foodgrains. As your Department would have to play a very important role in implementing the scheme, I request you kindly to have matters relating to your Department examined immediately so that we might discuss the implications of this scheme in greater detail some time early in February 1966.

I am sending copies of this letter along with copies of the note to the Heads of Departments under the administrative control of your Department.

Yours sincerely,

Shri
Secretary to Government,

Copies with copies of the note transmitted for information and necessary action to:--

1) The Registrar of Co-operative Societies in Mysore, Bangalore.
2) The Director of Agriculture in Mysore, Bangalore.
3) The Inspector General of Police in Mysore, Bangalore.

Copy transmitted to the Director of Food Supplies in Mysore, Bangalore. He is requested kindly to take necessary action in respect of all matters relating to the Food Department. He may in the first instance prescribe the proforma in which information is to be collected in respect of each of the families and send them to the Deputy Commissioners so that they may collect the data immediately and utilise the information not only in respect of procurement and distribution of foodgrains next year but also in respect of distribution beyond March, 1966.

Copy transmitted to:--

1) The Divisional Commissioners of all the Divisions.

2) The Deputy Commissioners of all the Districts.

hsh/-

(13) 57

MONOPOLY TRADING IN FOODGRAINS.

=.=.=.=

The State Government have decided to undertake monopoly trading in foodgrains during the current year provided that the money required for the purpose and the foodgrains required for maintaining the supplies are made available by the Government of India. They have also decided to undertake monopoly trading in any case during the coming crop year commencing from 1-9-1966 and have desired that necessary preliminary action should be taken from now on.

It may be difficult to undertake monopoly trading during the current year as it may not be possible to secure the requisite finances at short notice and to secure foodgrains on as large a scale as would be required for this purpose. Even then it is absolutely necessary that preliminary arrangements should be made for switching over to monopoly trading as soon as it is possible to do so.

So far as the coming year is concerned, since a firm decision has already been taken in the matter all the arrangements would have to be completed by about July 1966 at the latest. Government have also decided that the Co-operative Societies should be appointed exclusively as the agents of Government for both procurement and distribution when monopoly trading is undertaken.

The Revenue (Food) Department would have to organise:

(a) writing up of family cards and the parallel registers;
(b) assessment of crop yields;
(c) purchase of surplus grains,
(d) storage of the grains purchased;
(e) transport of net surpluses from each place to a common point and
(f) transport of the net requirements from a common point to each village;
(g) distribution of foodgrains through Fair Price Shops

The Department of Co-operation will have to (a) organise revitalise/strengthen Societies which are capable of undertaking both purchase and distribution at the rate of one for every big ~~fx~~ village or every group of small villages; (b) strengthen the Societies at the taluka level; (c) strengthen the Societies at the District level; (d) create or strengthen apex agencies either one for each Division or one for the entire State; (e) create storage facilities at every point where there is a local Co-operative Society adequate to handle and store initially surpluses purchased there and ultimately to meet the requirements of the local area; (f) create storage capacity at the Taluka level capable of holding buffer stocks that are meant for the taluka and for holding surpluses which are to be transported to deficit areas; (g) find the requisite finances for undertaking operations which may be in the order of Rs.80 crores; (h) organise Societies in all the Urban areas for wholesale distribution and retail distribution of foodgrains.

The Police Department has to strengthen its staff to meet the requirements of statutory rationing in all the larger towns and cities and areas with concentration of labour population, to seal the borders of the State,

.... 2.

to seal the borders of any local area that may be declared as a Zone and to organise their recruitment and training programme from now on so as to secure this result.

The Department of Agriculture would have to take powers to direct the cropping pattern so as to secure the following results: Any person who holds land which is equal to or less than the extent required to meet his requirements, the requirements of the members of his family, his servants and seed purposes etc., should necessarily grow only food crops. Any person who has got a larger holding must necessarily grow in the extent required for the purposes mentioned above only food crops and in the balance he could grow any other crops subject, however, to the condition that not less than 50% of his holding should be under food crops and that the land which was under food crops during 1964-65 should be switched over to cash crops only with the prior permission of some specified officers of the Department of Agriculture. The only exception to the general rule that the entire extent in respect of the smaller holdings and not less than 50% of the larger holdings should be under "food crops" should be cases in which a competent authority of the Department of Agriculture certifies that the land is more suited for growing cash crops than for growing food crops.

The State Government would have to fix purchase prices for foodgrains and corresponding maximum prices for the agricultural produce so as to ensure that the growing of food crops would not suffer on account of particularly attractive prices for the "cash crops". The storage capacity already created by the State and the Central Ware Housing Corporations, the Co-operative Societies and the Food Corporation of India should be fully utilised. Even then there is bound to be a short-fall in the requirements of storage capacity. Government should therefore take powers to requisition storage capacity available with millers, traders and others. The processing capacity available in the Co-operative Sector is limited. While such capacity could be utilised fully it would be necessary to utilise the processing capacity available in the private sector. Powers should therefore, have to be taken to direct the millers to mill paddy according to the directions of Government and at the prices to be determined by Government.

The Food Department will have to approach the Government of India and secure an assurance that they would meet the short-fall in our requirements.

The Department of Co-operation will have to approac.. the Government of India through the Finance Department for the funds required for these operations. In case the Co-operative Sector is not able to secure all the money required for the purpose, they would have to approach other financing agencies. In any event the Co-operative Sector will have to assure themselves that they could raise the entire resources required for the operations from one source or another. The Co-operative Department should secure adequate stocks of weighing machines, gunny bags, fumigation equipment and other necessary articles which are required and to make arrangements for transport of foodgrains from one point to another.

All the Departments of Government which involved in the scheme must have an assessment of the additional staff and additional finances required by them and

.... 3.

(15) 54

and the additional facilities which are absolutely necessary to ensure that the scheme is implemented successfully, obtain the necessary clearances and be ready to implement the scheme by 1-8-1966 at the latest.

The question of setting up coordination Committees at the State level and at the District level would also have to be considered.

CABINET NOTE

Subject: C. 20/66
Scheme for achieving self-sufficiency in foodgrains in Mysore State within three years.

---

xx xx xx

15. Orders of the Cabinet are therefore solicited:

(1) whether the draft outline plan prepared by the Director of Agriculture is generally acceptable;

(2) if so, whether the same could be forwarded to the Government of India with a request for reservation of the necessary fertilizers and necessary short-term credit of Rs. 9 crores to ensure adequate inputs;

(3) whether the non-recurring and recurring expenditure proposed by the Director of Agriculture and the Registrar of Co-operative Societies should be sanctioned on an Emergency basis, or should be scrutinised by the Finance Department and orders issued in due course;

(4) whether special powers be delegated to the Director of Agriculture and the Registrar of Co-operative Societies, as suggested in paras 6 and 7 above;

(5) whether irrigation pump sets should be routed through the Land Development Banks so that, with the same amount that the Government provid four times the programme could be taken up, as suggested in paragraph 9 above;

(6) whether for promoting public cooperation:

(a) a machinery should be set up for preparing a district, block and village plans;

(b) an economic price for foodgrains should be announced long before the sowing season;

& (c) water rates be suitably adjusted in favour of food crops generally and short-term food crops specially;

and (7) whether the Chief Secretary, with adequate delegations of power, should himself be in charge of the programme, or whether the Special Secretary and Development Commissioner should have an equivalent status and necessary powers to supervise work of all Departments, as in Andhra Pradesh and Madras, as mentioned in paragraph 14 above, by appointing him as Additional Chief Secretary to Government for a period of three years in the first instance.
